Spring Enrichment Day Program Update

February's going to be an eventful month for the Boys & Girls Club of Burbank and GEV! We've got fun activities planned all to highlight Black History Month, Valentine's Day and President's Day for all of our members.

Stevenson

Peyton-Grismer

January's Donor Highlight: Jonny Holiday

Club friend, entertainer Johnny Holiday has been supporting our Club for years. He reminds us back in the 1950's when his Uncle Bing (Crosby) built youth centers called Bingvilles and he used to visit the kids after school. He remarks, "You offer so much more than we had back in my day yet it's so critical that our young people have a safe place to go after school or even on non-school days to enjoy wholesome activities in a safe and caring environment till Mom and Dad get off work. The Boys and Girls Club is an extension of their growth and learning. It is vital to a healthy childhood too!" Thank you Johnny, for your continued support and kind words. We are so grateful for all of your support through the years. Club members love it when you visit and we can't thank you enough for your efforts in helping us secure funds for our new building.

January's Youths of the Month

We would like to highlight club members who exemplify the club motto to “respect yourself, respect the club, and respect others”. Congratulations to last month’s winners! Youths of the Month are chosen for their ability to follow rules, participate in daily activities, and demonstrate leadership within their pods. Congratulations to Mathew, Pablo and Wilbert from Main Club, Isabella from Bret Harte, Henry from Stevenson, David from Edison, Sophia from Elmwood, and Devin from Peyton Grismer

West Coast University Tele-Health Program

SPEAK WITH A HEALTHCARE PROFESSIONAL

Do you know someone who would benefit from a no-cost educational health discussion? West Coast University is now offering telehealth appointments with nursing faculty and students. Community members of all ages are welcome to call and learn more about their health concerns.

**Scan the QR codes
or call the number to
speak to a healthcare
professional!**

What is telehealth?

WCU's telehealth program provides nursing students the opportunity to learn while giving back to the community. Since telehealth is conducted over the phone, it is a great way for community members to learn about health concerns without having to visit a doctor's office.

What kind of health issues can telehealth support?

A telehealth appointment can provide you healthcare education in a variety of topics, including:

- COVID-19
- Nutrition
- First Aid
- Mental Health
- Pediatrics
- Obstetrics
- Existing Health Conditions
- Medication Administration
- Senior Health

What should I expect on a telehealth call?

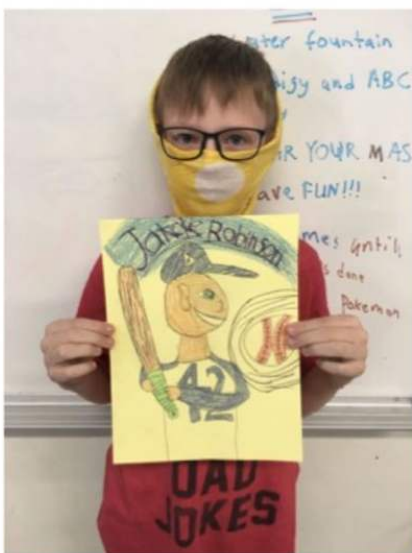

Initially, you will be contacted to schedule a time for a telehealth appointment. During your appointment, a WCU nursing professor and students will contact you by phone to discuss any health concerns you might want to learn about. They might ask if they can schedule a follow-up appointment to share additional resources.

What are the benefits?

Connect with nursing professionals and students to get better educated about your health, including learning more about COVID-19 safety.

Black History Month

In honor of Black History Month members are creating collages and portraits of African Americans who inspire them. This person could be someone they know personally, a person from history, or a person who is currently influential. Each week, members at our sites will present their special person and explain why that person is influential to them. Please make sure to check out our Facebook and Instagram all month to hear from our members!
